

RTM

Compact All-in-One DC Fast Charger
Compact, Upgradeable Power

Compact, powerful, flexible

Charge anywhere.

The RTM75 is Tritium's compact, all-in-one DC fast charger. It can easily fit in parking lots, parking garages, retail environments, or even streetside. RTM75 can be installed anywhere you need fast charging.

Charge reliably.

RTM75 is designed to withstand extreme conditions and can be easily maintained in the field thanks to its modular design and construction. RTM75 is the charger your customers can rely on.

Charge easy.

The RTM75 can be installed without any additional equipment and with minimal site preparation. It was designed for fast, easy installation so you can start charging customer EVs right away.

Compact, All-in-One Charging

- › **All-in-one design** reduces infrastructure costs.
- › **Compact footprint** for easy installation in tight spaces.
- › **Liquid cooling** improves longevity and lowers cost of ownership.
- › **Modular design** makes upgrades and maintenance simple.
- › **Weather sealed** (IP 65 rating) for use in the most demanding environments.
- › **LED lighting** front and back to improve visibility and safety and to illuminate branding.
- › **Optional status lights** make it easy for drivers to spot open chargers.

Features and specifications:

- › Deliver up to 75kW
- › 1998mm x 783mm x 309mm (78.6" x 30.8" x 12.1")
- › IP65 and NEMA 3R weather rating
- › Operating temperature range: -35°C to +50°C (-31°F to +122°F)
- › CCS1/2 (up to 920V/200A DC), CHAdeMO (up to 500V/125A), and NACS (coming soon) compatible
- › Simultaneous charging
- › Contactless 3-in-1 credit card reader options
- › Plug & Charge (ISO 15118-2) support
- › Multi-language support
- › Ethernet & 3G/4G wireless communication
- › 6m (19'6") cables with cable management (other cable options available upon request)
- › ADA compliant, EN 301 549 compliant

World-Class Technology Provider

Your Cutting-Edge Technology Partner

Founded in 2001, Tritium designs, engineers, and manufactures proprietary hardware and software to create advanced and reliable DC fast chargers for electric vehicles. Tritium's compact and robust chargers are designed to look great on Main Street and thrive in harsh conditions, through technology engineered to be easy to install, own, and use.
